

## LEFT HAND DRIVE STEERING RULE REVIEW 2005

**Have your opinion heard and make it count!**

**ACT NOW! THIS IS YOUR CHANCE TO INFLUENCE A RULE CHANGE.**

Please support the campaign to abolish the 90-day overseas rule requirement in order to register a late model left hand drive vehicle in New Zealand in its as built form. This is a unique opportunity to help influence a decision for the benefit of LHD vehicle enthusiasts, not only current enthusiasts, but for future LHD enthusiasts.

Why be forced, at great expense, to have a left hand drive vehicle converted to right hand drive just to have it registered? There are no accident statistics to support this rule. This rule discriminates against those that choose to own a less than 20 year old left hand drive vehicle and cannot afford an overseas holiday for more than 90 consecutive days.

Safety is a key issue, together with weight of numbers behind this campaign. We also need comments from drivers of left hand drive vehicles to offer their opinion on how easy they find it to drive their left hand drive vehicle(s) on NZ roads.

In completing this, we would ask your permission to load your support comments onto the feed back forum on the NZ MUSTANG.COM web site along with everyone else's comments to date. This is important to show your support, so that we can gather all support at a central point, to show the LTNZ rule makers, we have a united front and just how many people are behind this campaign for change. Come on Kiwi's lets get this done!

Thank you for your support, collectively we can make a difference. Let LTNZ know this!

**Yes I/we support the removal of the 90-day overseas rule. I/we agree forcing a late model vehicle that meets Frontal Impact standard FMVSS208 to under go an unnecessary and expensive right hand drive conversion, forces the vehicle to be made less safe. This also detracts from the vehicles originality and collectability.**

Please advise below how you find driving a left hand drive vehicle on New Zealand Roads or any other comment you wish to make.
